George A. Hashim, Ph.D.
Associate Research Director
The Council for Tobacco Research-U.S.A., Inc.
900 Third Avenue
New York, NY 10022

Dear Dr. Hashim:

As a follow up to my recent letter of July 29, 1993, I am enclosing the final program for the subgroup meeting on the Endothelial Cell Heterogeneity and Organ-Specificity at the Annual ASCB meeting in New Orleans in December.

As you can see, we have managed to assemble a very illustrious roster of speakers. The topics are certainly timely and very exciting. I would very much appreciate if The Council for Tobacco Research could, as in the past years, generously assist us to defray the costs (such as renting the room, audio visuals) for organizing this meeting and, in part, help defray the travel expenses for some of the non-industrial speakers.

As in the past, your generous contribution will be acknowledged at the time of the conference as well as any subsequent publications e.g. a conference report and a tentatively planned special issue of the new journal, *Endothelium*, which will be devoted to endothelial cell heterogeneity and organ-specificity carrying lectures presented in New Orleans.

Thank you in advance for your considerations.

Sincerely,

Peter I. Lelkes, Ph.D.
